PROFILE

Holder of a Professional Bachelor's degree in Computer Systems and Networks Engineering and a Specialized Technician diploma in Digital Development, with skills in Linux and Windows Server administration, computer networking and infrastructure security. Proficient in virtualized environments (VMware, VirtualBox), network services (DNS, DHCP, VLAN, routing) and diagnostic and monitoring tools. My web development background (React, FastAPI, Laravel, PHP, JavaScript) also allows me to understand and integrate applications and services within IT infrastructures. Rigorous, autonomous and problem-solving oriented, I am seeking a position as a Junior Systems & Network Administrator or IT Support Technician.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Systems & Networks *April 20, 2026 – July 9, 2026*
IP Technology — Casablanca
Project: design and development of a web platform for visualizing, supervising and monitoring network infrastructure.

- Designed and developed a network monitoring web application with **React.js**, **TypeScript** and **FastAPI**.
- Developed REST APIs and integrated a **MySQL** database with **SQLAlchemy** to manage network equipment.
- Implemented automatic device discovery and network analysis using **Scapy**, **Nmap** and **Ping Sweep**.
- Designed an interactive network topology with **React Flow** and implemented **JWT** authentication.

Full Stack Developer Intern *April – May 2025*
Seeward — France (Remote)

- Developed web interfaces with **React.js** and contributed to improving the user experience.
- Developed the backend in **Python** and integrated REST APIs with **FastAPI**.
- Collaborated on new features within a remote team using **Git**.
- Took part in testing, bug fixing and application maintenance to ensure quality and reliability.

TECHNICAL SKILLS

Programming languages: HTML5, CSS3, JavaScript, PHP, Python
Frameworks & technologies: React.js, FastAPI, Laravel, Node.js, Express.js, React Flow
Databases: MySQL, PostgreSQL, MongoDB
Systems & networks: Linux, Windows Server, TCP/IP, VLAN, DHCP, DNS, Active Directory, Virtualization (VMware, VirtualBox)
Cybersecurity: Network analysis, Nmap, Scapy, ARP Spoofing (Lab), Firewall, JWT authentication
Development tools: Git, GitHub, Docker, VS Code, Postman
Soft skills: Problem solving, Communication, Teamwork, Adaptability, Critical thinking, Time management

EDUCATION

Professional Bachelor's Degree in Computer Systems and Networks Engineering *2025 – 2026*
ESTEM, Casablanca
Specialized Technician in Full Stack Web Development *2023 – 2025*
OFPPT – HASSANIA, Casablanca
